ECOSPILL
LEVEL 2 FIRST RESPONDER TO LIQUID BSIF ACCREDITED COURSE

Intermediate Training Course Code: LVL2INTR

Overview:
This course builds on the knowledge gained in our Level 1 Foundation Training, offering a deeper understanding and more advanced practical skills for spill response. BSIF accredited, it is ideal for individuals who may be required to act as the first responder to liquid spills in the workplace. This course includes a concept on training, level 1 foundation course and a external practical.

Level 2
Responder to Liquid
BSIF Accredited Course

Duration & Delegate Info
Session length: Up to 3 hours
Max attendees per session: 12 delegates

Course Objectives:
By the end of this course, attendees will:
- Understand what constitutes a spill and the types of hazards involved.
- Be able to identify, select, and safely use absorbents and spill kits.
- Recognise the importance of having a simple, effective spill response plan.
- Appreciate the environmental, financial, and reputational impact of unmanaged spills.
- Be equipped to take practical first-response action using the spill control products available on-site.
- Learn in application with an internal and external demonstration.

Course Outline:
- Defining spills – incidental vs emergency.
- Common causes and consequences of spills.
- Understanding governing legislation.
- Statistics and real-world examples.
- An explanation of Emergency Spill Response framework and the '10-step plan' for safe and effective spill response.
- Overview of typical absorbents and their uses.
- A run through of the Ecospill product ranges.
- An internal demonstration.
- An external demonstration.
- A summary and some examples of 'bad practices'.
- Finish with a Q&A and interactive discussion.

What You'll Need to Provide:
To get the most from the session, please ensure the following are available:
- A training room with sufficient seating, with space to effectively carry out a dry demonstration for up to 12 attendees.
- A method of viewing a PowerPoint (.ppt) presentation from a laptop, either via projector and screen, or a TV with HDMI connections.
- An area dedicated to carry out an external demonstration.
- The external demonstration will require a hardstanding area approximately 3–4 metres wide and 6 metres long, coned off to traffic where necessary. A gentle slope within this space is preferred.
- This area will be needed for around 40 minutes during each course and should be located within a short distance of the training room.
- A clean water supply will be required to simulate spills, ideally provided via a hosepipe or a clean IBC, or drum at least half full.
- The final position for this can be agreed on arrival, and if possible, a forklift truck or a licensed driver from the course attendees should be available for a few minutes to assist.
- For the clean-up, please have a shovel, yard broom, and black waste bags ready.
- Attendees should also wear suitable clothing in case of poor weather.

Certification:
Each delegate will receive a Certificate of Attendance upon successful completion of the session. Certificates are valid for 2 years.

Questions:
If you have any questions, please contact your regional business development manager or email Ecospill at sales@ecospill.org.uk or call 01709 542 259.
