

ARE YOU PREPARED

FOR WASTE MANAGEMENT LEGISLATION?

In England, from 31st March 2025, new legislation will mean businesses with more than 10 full-time employees must separate "recycling relevant waste" prior to collection for processing off site.

Businesses will be responsible for the waste collected on and transported from their premises, meaning dry recyclables (which can be grouped together), food waste, and general waste must be separated.

(From March 2027)

Businesses will not be able to use food waste disposal equipment (for example macerators) or other forms of food waste treatment equipment (for example dewatering or enzyme digesters) to discharge food waste or liquid derived from food waste to a drain or sewer.

RECYCLING PRODUCT SOLUTIONS

All of our waste and recycling containers are manufactured to stand the test of time and come with up to 10 year warranties to provide you with added peace of mind.

RCP has a broad range of containers & trucks to support your business with internal waste collection and movement, maximising recycling and minimising contamination.

WASTE DISPOSAL

Where waste is created, it must also be collected. Our product solutions help to centralise the accumulation of waste.
